

# Accommodation Supply

If you are looking for a flexible solution for your modular accommodation requirements, then look no further than PMA Services. With our range of sleeper units coupled with our extensive provision of ancillary units, we can create a tailored solution to meet your needs, or those of your client base.

We have extensive experience of supplying accommodation to the Ministry of Justice, offering an alternative solution to traditional prison accommodation and were able to offer multiple cohorting options as we worked with the MoJ as part of their response to Covid-19. We are able to offer a turnkey package which will see us take your requirements from concept through to project completion, providing you with units that are ready to use as we hand you the keys.

We can also provide a split service whereby we work on a supply only basis, be that for the units or the installation elements, all of which are carried out by qualified, professional operatives.

Due to increased client demand we have expanded our operations and have a new facility in Aylesbury, where we carry out the bulk of our off-site manufacturing. We do however have the capability and capacity to carry out on-site works.

All of our units comply with the latest standards and legislation, covering not only building regulations, but also the living standards expectations of Her Majesty's Inspectorate of Prisons. We would welcome the opportunity to discuss any potential future opportunities with you.

## Our Journey So Far

Since May 2020, PMA Services have provided a combination of turnkey, install and supply only packages that has seen almost 1,000 individual units being deployed into the prison estate, with further orders yet to satisfy. The breakdown of this is:

**Supply only:** 170 overall

(140 accommodation units and 30 ancillary units)

**Install only:** 260 overall

(240 accommodation units and 20 ancillary units)

**Turnkey (supply/manufacture and install):** 492 overall

(442 accommodation units and 50 ancillary units)

## Future Capacity

PMA Services currently have 600 accommodation “boxes” that are ready to be fitted out as per the clients’ requirements. These are truly bespoke to the clients’ needs and we welcome any design input from the clients’ side. We have a wide and diverse supply chain, meaning we are able to maintain a constant flow of units into our manufacturing facility and are able to fit out 20 boxes per week, to a finished standard – for financial year 2021/2022, this means we have the capacity to supply circa 1000 units across our client base.

## Prison Cleared Personnel and Wider Custodial Delivery Partners

Having been delivering services to Prisons since 2014, PMA Services have a healthy amount of directly employed prison cleared operatives, up to and including CTC vetted staff. As of November 2021, that number stands at 155.

In order to ensure we fully meet the need of any client requirements, PMA Services often call on built relationships with other experienced custodial delivery partners, including:

- Binns Fencing
- ADT
- Protec
- Game Engineering
- Cell Security
- Kronos CCTV specialists

## Procurement Route

PMA Services can be engaged to deliver services into the prison estate via a number of avenues:

- **Government Facility Services Ltd (GFSL)**  
Southern Regions
- **Amey Secure Infrastructure PLC**
